

# TURNCLOUD DNA

Every employee should have the chance to make a home and raise a family if they wish.

We trust our customers to tell us what we do well and what we do badly. We promise to create the space for this to happen.

We're customers too. Our suppliers need to work with us to achieve our goals.

Who we are, who we work with and those we support and supply are all part of this company.

We need to tread lightly on this planet. We shall do what we can to balance what we sell with the impact it creates.
